ETO Sterilizer Manufacturer

We are the prominent **ETO Sterilizer Manufacturer** in India, fabricating supreme quality equipments for the sterilization applications in medical and diverse industrial sectors. Our products are made as per the standards set by the industrial norms. Industries choose our **E.T.O Gas Sterilizer** equipments over our competitor's due to their exceptional features, high functionality, consistency as well as reasonable price rates.

Ethylene Oxide Sterilizer

Ethylene oxide sterilizer is an equipment mainly applied to sterilize numerous instruments. It uses Ethylene oxide to chemically affect the amino acids, proteins and DNA of the detrimental germs and curb their reproduction process. It is chiefly applied in medical and pharmaceutical industries. The objects that could be damaged by heat and moisture can be sterilized with this system.

Benefits:

- safe and hygienic results
- high durability
- affordable
- effective and reliable

Hospital ETO Sterilizer

We are the manufacturers of supreme quality & accurately operating Hospital ETO sterilizer. Sterilization is one of the principal and obligatory processes in the hospitals and requires to be accomplished faultlessly and proficiently. This **E.T.O Gas Sterilizer** is easy to install and needs minimal maintenance. We supply them at affordable prices.

Benefits:

- effortless to install
- needs minimal maintenance
- affordable
- Faultlessly operating

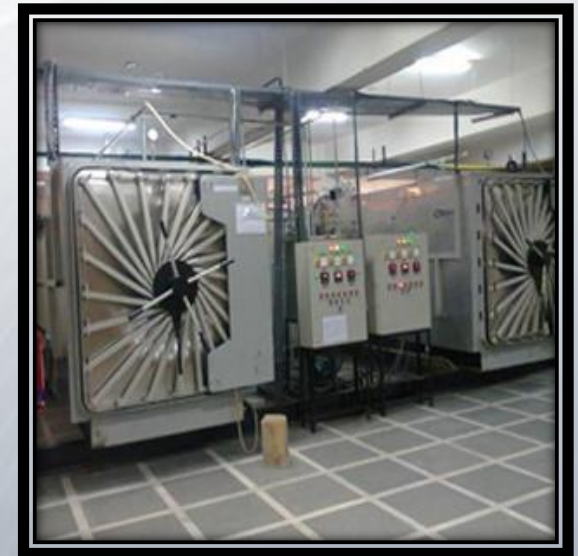

ETO Gas Sterilizer

ETO Gas Sterilizer is extremely effectual sterilizing equipment. It is ideal for heat sensitive tools and devices as it employs only ethylene oxide gas for sterilization process and does not involve high temperature processing. We are the chief **ETO Sterilizer Supplier** in India and our products are demanded in the cities such as Surat, Coimbatore, Bangalore, Guntur and Indore etc.

Benefits:

- quality tested
- Consistent results
- high safety
- High durability
